It was good talking with you on the telephone this afternoon, and I certainly do appreciate your offer of assistance on our U-2/Cuban missile project.

Enclosed is a list of picture ideas I jotted down while reading through Mr. Moser's article. You may have some of your own to add to the list, and I'll be grateful to have whatever other ideas you come up with. There are several items on the list that will come from sources other than your files--especially those pictures of the various people involved that would come most readily from news agencies. I have put a check mark next to each of those to indicate to your researchers not to bother with them unless they have something outstanding and right to the point for those items. We are, by the way, interested in both color and black and white photos.

As you have suggested, I'll give you a buzz next Wednesday and we can plan at that time how we shall go about making our selection. My thanks, in advance, for all your help. It is very much appreciated.

Yours truly,

Devorah K. Cohen

Picture Editor

American Heritage Magazine

P.S. The article by Don Moser is scheduled for ^{our} October 1977 issue.
